Experience

Professional Service Consultant

Brooklyn, NY

Bright Brains IT / Nexthink

June 2025 – August 2026

- Configured and deployed Nexthink DEX solutions for **8+ enterprise clients**, integrating monitoring across **6,000+ managed endpoints** and improving platform visibility and scalability.
- Configured and deployed **15+ remote action scripts and parameters** to integrate Nexthink users with ITSM platforms (ServiceNow, Jira), reducing incident detection-to-ticket time by **~40%**.
- Built custom queries and real-time dashboards surfacing endpoint health KPIs, enabling IT teams to cut mean time-to-resolution (MTTR) by an estimated **30%** per engagement.

Property Manager

Remote

VRBO / Airbnb

November 2024 – Present

- Managed day-to-day operations for **2 short-term rental properties**, handling **10+ guest stays/month** and maintaining a **4.8-star average rating** across both platforms.
- Designed automated guest communication templates, achieving **100% response-rate consistency** and cutting average response time to under **15 minutes**.
- Managed a **~\$1,500/month operational budget** covering amenities, utilities, and supplies, reducing unnecessary spending by **~20%** through optimized inventory and vendor negotiation.

Undergraduate Research Assistant

University Park, PA

Pennsylvania State University

January 2024 – May 2024

- Co-authored **2 textbook chapters** on CNNs, gradient descent, and image classification (MNIST / Fashion-MNIST), contributing to a course adopted by **40+ students**.
 - Collaborated on a research paper training visual transformers, running experiments that achieved **92%+ classification accuracy** on benchmark datasets using PyTorch.
 - Wrote and reviewed **15+ lecture questions** and problem sets across **4-chapter drafts** to ensure technical accuracy and student understanding in published course materials.
-

Projects

[FencingTime](#) (React, SQL)

- Built a full-stack tool using React and SQL, implementing a live tournament tracking platform designed for fencing events.
 - Implemented CRUD functionality for fencers, events, and participant rosters through a dynamic React interface backed by a relational database.
 - Engineered pool draw and direct elimination (DE) bracket generation with automated result propagation and live rating updates.
-

Education

Master of Science (M.S.) in Computer Science

May 2027

Georgia Institute of Technology

Atlanta, GA

Specialization in Computational Perception and Robotics

Bachelor of Science (B.S.) in Computer Science

May 2024

Pennsylvania State University

State College, PA

Minor in Mathematics — Minor in Cybersecurity Foundations

Skills

Languages: Python, Java, SQL, C, C++, JavaScript, HTML/CSS

Frameworks & Tools: React, Git, Linux, NoSQL

Platforms & Certs: ITSM Integration, IT Support, MS Office Specialist Master (2019)
